

REMARKS

Applicants hereby elect the claims in Group II that are directed to Figure 2. These claims include claims 25-75.

It is noted that Figure 3 is directed to a reader and not a tag. See, for example, the Brief Description of the Drawings section of the present application which states that "Figure 3 illustrates additional detail of a long range reader that can be used with the tagging system of Figure 1." This reader is the reader 12 shown in Figures 1 and 3.

By contrast, the Brief Description of the Drawings section of the present application states that "Figure 2 illustrates additional detail of a tag that can be used with the tagging system of Figure 1." This tag is the tag 16 shown in Figures 1 and 2.

Accordingly, because all of the claims presently in the application are directed to a tag, then all of these claims must be directed to the tag shown in Figure 2.

CONCLUSION

In view of the above, an examination of claims
25-75 is respectfully requested.

Respectfully submitted,

SCHIFF HARDIN LLP
